

## **Patient-centric Connected Clinical Information Solutions That Make a Difference in Healthcare Delivery Quality**

### **CLIP®CareONE Software Suite for Hospitals:**

- Secure web-based, remote and local host log-in capability
- Comprehensive electronic health record management
- Seamless patient administration from admission to discharge
- ePrescription and ePedigree applications
- Integrated RFID for patient identification and medication
- Streamlined clinical and financial work-flow management

SIMPLE

SCALABLE

FLEXIBLE

## New Web-based Solution Allow Hospitals and Clinics Manage Patient Health Records, Capture Charges and Fulfill Electronic Prescription Orders.

CLIP®CareONE solutions with integrated RFID capability allow **physicians, clinicians and healthcare providers** connect with patients, document clinical care, track critical medical assets, manage medication and billing across the healthcare continuum using a unified web-based service platform.

CLIP®CareONE delivers a standards-based solution that is built on the cornerstones of **Interoperability, Security, High-availability and Scalability** eliminating the need for several proprietary applications.

**Hospitals, Clinics and Health IT administrators** now have a simple, flexible, cost effective connected health information management solution that is easy to deploy rapidly and reliably.
